MOSQUITO CONTROL COMMISSION REPORT

The goal of our program is to keep mosquitos at sub-nuisance levels by the safest means possible. This is accomplished primarily by controlling immature mosquitos in their aquatic breeding areas- saltmarshes, red maple swamps, road side ditches, etc. By identifying the mosquito species involved and their particular breeding areas we strive to effectively eliminate the mosquito problem.

With each passing year our program becomes stronger. During the 1987 season we identified and controlled many new breeding areas and intend to do so in 1988. Surrounding communities all have programs and their cooperation has been encouraging. With improvements to our 1988 plans, we are optimistic that it will be our best season yet.

Michael Morrison, Entomologist
Michael O'Keefe, Natalie Fernald
Edith Lovering, Chairman

HEALTH OFFICER'S REPORT 1987

The year presented no major health problems for the residents of Greenland. There were routine inspections of Child care and eating establishments and investigations of improper trash and garbage disposal. There are two existing failed waste disposal systems that will require extensive repair. These are in work with the owners.

Wallace S. Berg
Health Officer

SUMMARY OF THE RECREATION COMMISSION

The summer recreation organized and directed by the Recreation Commission was enjoyed by young and old once again.

We started off with 46 boys and girls playing baseball and they had a good time, we also had about 45 girls playing softball and what a time they had, it was a lot of fun for them also.

Next we moved on to Soccer, what a tremendous interest we had. We appointed Doug Zechel to head this program and he did one hell of a job. We had over 100 kids who had one tremendous time.

Then we moved on to Basketball. We appointed Brian Sullivan to head this program and he has such a good rapport with the kids and his knowledge of the game is a big asset.

We the Recreation Commission would like to thank all the coaches (too many to mention, you know who you are), managers, officials, coordinators, parents and don't forget the Mothers for your time, money, effort and enthusiasm that you have shown for the youngest in the Town of Greenland.

Without you people we could not do our job. We also would like to thank the Town for the confidence that you have in us, and the job that we are trying to do for your children, please continue to support us and, in turn, we will see to the recreation needs for your children now and in the future in the Town of Greenland.

Recreation is healthy, it builds personality and character and confidence in one's self. Try it, you'll like it.

Thank you all once again!

Library trustees, Friends, and staff continued to work toward increased service to the town in 1987 and toward certification as an associate library within the state of New Hampshire library system. We continued our Wednesday morning story hours this year with an average attendance of 12 and also held bedtime stories in July and August. Our adult programming included a Christmas Baker's Book Club and Christmas craft classes. Our juvenile programming included a sign language class, Christmas crafts for which 36 youngsters turned out, and Saturday movies in December and during school vacations. Our summer reading program, "Dinomania" had 73 children who read over 600 books. Activities included a story-teller, stenciling a T-shirt, and decorating dinosaur cookies. We held a Christmas raffle for library patrons with prizes donated by Rolling Green Landscaping, Hodgdon's Turkey Farm, Salamandra Glass, and Country View Restaurant. We also held a get-acquainted coffee in September for town officials and representatives from town organizations to meet newcomers to the area. Numerous Friends and townspeople helped with these programs and we thank them all.

Your librarian continued to attend Seacoast cooperative meetings, a CHILIS conference and a 2-day seminar called Connecting sponsored by the NH Educational Media Association, the NH Education Dept. and the NH State Library.

Our Friends group held a profitable Bake and Plant Sale in May with the Book Sale held during Summerfest in July. Friends programs included "Tower Clocks" with Capt. Ray Jones, "How Klutzy became a Clown" with Pat Hamel, and the Library Christmas Open House.

The Boy Scouts gave a donation which has purchased a number of new wildlife survival skills, and camping material. GFWC Greenland Jr. Women gave a donation to purchase children's videos and the Historical Society donated two new Ray Brighton books, "Port of Portsmouth and the Cotton Trade" and "Clippers of the Port of Portsmouth".

Memorial gifts were given in memory of Robert Cross, Charlotte Baumgarten, Ruth Nelson, and Alice Cannon. Our thanks to those who remembered these people by making lasting donations to the library.

December 23rd was the librarian's last working day. I wish to thank all of you for your support throughout the years. The trustees have hired a new librarian to start Jan. 4th, 1988.

Susan S. Ahearn, Librarian

LAMPREY REGIONAL SOLID WASTE COOPERATIVE

The Directors of the Lamprey Regional Solid Waste Cooperative are pleased to continue that the incinerator/energy recovery plant located on the campus of the University of New Hampshire is operating on a continuous twenty-four hour, seven day a week schedule.

The day-to-day operation is carried out under the supervision of the Cooperatives Administrator, under the general supervisory control of the three member Operations Committee from the Joint Board of Directors. The plant personnel, in addition to the Administrator, includes two mechanics, a truck driver, two daily shifts of 12 hours each involving 8 persons plus daily clean-up crew, and the secretary. This organization operates the incinerator system, maintains records, and coordinates with the University's heating plant staff to monitor the boiler and steam production elements of the plant. The Cooperatives organization also handles the collection of refuse from the transfer stations of four communities, and handles the ash removal and its transfer to landfill sites.

The most pressing problem that faced the Cooperative this year was selecting and permitting an ash landfill for the residue from our incinerator process. After looking at sites in all of the Cooperatives member communities a site in Somersworth was selected with the approval of the Somersworth City Council with a few stipulations, the largest of which was that we conduct a test program to forecast the results of mixing the ash with Somersworth's sludge from its Waste Water Treatment plant.

The Cooperative entered into an agreement with the Environmental Research Group, which is affiliated with the University of New Hampshire, to perform such tests. The results have been excellent and could be considered a minor breakthrough in environmental engineering. Mixing the sewer sludge with the ash from the incinerator makes a much more environmentally sound product than either of the two elements by themselves. The final report should be finished by the middle of January 1988 and a copy of the final report will be sent to each town in the Cooperative.

While the testing with the Environmental Research Group has been ongoing the Cooperative has been proceeding with the permit process with the State of New Hampshire. To date some fifteen test borings have been made on the site, ninetyfive percent of the hydrological work has been completed and one hundred percent of the design of the landfill for submittal to the state with the application has been completed. Hopefully by the time you read this the state of New Hampshire will have issued the permit to construct the facility.

The tipping fee this year will remain the same as last. One thing should be noted, last year (1986), the Cooperative processed 37,863 tons of rubbish from member communities and this year (1987) processed 39,883 tons for a 5.33% increase. The member communities are asked to examine methods of reducing their waste stream. As a side note, each person on the average generates about 3.0 lbs. of rubbish per day which equates to about eleven hundred pounds per year, so therefore if 100 people move into your community in one year the communities rubbish bill is going to be \$2,225.00 higher based on this year's tipping fee of \$41 per ton.

Joint Board of Directors
Lamprey Regional Solid Waste Cooperative
/s/ Joseph B. Moriarty, Vice-Chairman

REPORT OF THE PLANNING BOARD

The Planning Board held over 20 meetings this past year, some lasting into the early morning hours, as we dealt with the issues of good growth for Greenland.

We are grateful to each one of you who took the time to attend the public hearings. Your comments are vital if we are to do a good job, for you bring a unique perspective and knowledge of a particular project or proposed ordinance.

We are especially thankful for the years of tireless and intelligent service of Rance Collins and mourn the loss of our dear friend. We would also thank member William Adams for his six years of dedicated service; Joe Hunkins for his good advice; Ruth Sargent for her service as secretary; Richard Dill for his counsel; and Chief Gilbert and Jack Driscoll for their advice on public safety.

We are certain that 1988 will be a year of challenges and opportunities. We urge each one of you to take the time to read over the proposed zoning amendments on the Town Ballot and to exercise your right to vote.

Respectfully submitted,
Thomas Brackett, Chairman
William Adams, David Engel
Robert Moore, Larry Smith

REPORT OF THE BOARD OF SELECTMEN

During this past year 1987 the Town of Greenland went through its third reevaluation since 1976. The Selectmen were pleased with the results and so are most of the taxpayers or so it seems. We had very few requests for abatements and the few we had will be acted on shortly.

Also the Board of Selectmen would like to thank Novel Iron Works for two items it provided to the Town free of charge this year:

- A. An iron gate for the cemetery to help control access during the night
- B. A steel set of basket ball uprights that were installed before the new paving was laid at Caswell Park. This now gives the Recreation Commission a new activity at a reasonable cost.

The bandstand was completely replaced on the Greenland Parade.

Please set aside time to vote on Tuesday, March 8th, between the hours of 10 AM to 6 PM at the Greenland Central School. Absentee ballots are available from the Town Clerk for those who find the hours inconvenient.

Also, plan to attend the business portion of the Town Meeting which will convene at 8 PM on Thursday, March 10th, 1987, at the Greenland Central School.

Richard H. Rugg
James J. Wilbur, Selectmen

GREENLAND VOL. FIRE DEPARTMENT REPORT

Emergency responses by the fire department in 1987 rose to an all time high of 229, an increase of 56 over 1986.

A breakdown of the responses are as follows:

1. Structure	5
2. Wood & Brush	3
3. Chimney	7
4. Washer/Dryer	3
5. Town Dump	6
6. Power Lines	3
7. False Alarm - Accidental	17
8. False Alarm - Malicious	1
9. Controlled Burning	2
10. Vehicle Fire	7
11. Vehicle Accident	3
12. Vehicle Accident w/Injury	25
13. Medical Aid	110
14. Station Standby	4
15. Investigations	6
16. Mutual Aid-Fire	11
17. Mutual Aid-Ambulance	12
18. Miscellaneous	4

TOTAL 229

Mutual aid was provided and received as follows:

Mutual Aid TO:	Newington-Fire	4
	Newington-Ambulance	10
	Hampton-Fire	1
	New Castle-Fire	1
	Portsmouth-Fire	2
	Stratham-Fire	3
	Stratham-Ambulance	2
Mutual Aid From:	Newington-Fire	3
	Newington-Ambulance	9
	Portsmouth-Fire	4
	North Hampton-Fire	2
	Stratham-Fire	3
	Stratham-Ambulance	1
	Pease AFB-Fire	2
	Rye-Fire	2
	New Castle-Fire	1

As you can see from this report, the emergency calls are ever increasing as the town growth increases; but the Volunteer Fire Department has not been able to keep up with the growth. In 1987 the active membership has decreased. In the spring the Department provided CPR training to 122 residents with the hopes of motivating some to join the ambulance corps. Only one individual signed up. At present the

active membership is broken down as follows:

Fire Fighter	15
Fire Fighter/Amb	8
EMT	3

"HELP WANTED"

Also in 1987 Kenneth Fernald resigned as chief of the Department. Ken had been chief for the past nine years and a member of the Department for who knows how long. His leadership and fire service knowledge will be missed by all.

REPORT OF TOWN FOREST FIRE WARDEN AND STATE FOREST RANGER

Between July 1986 and June 1987, we experienced fewer fires than normal. The three leading causes of forest fires were again children, fires kindled without written permission of a Forest Fire Warden and debris burning. All causes are preventable, but only with your help.

Please help our town and state forest fire officials with forest fire prevention. Contact your Forest Fire Warden for more information.

Enforcement of a state timber harvest regulation is the responsibility of State Forestry officials. Our state has excellent timber harvest regulations; however, your assistance is needed.

If you know of a logging operation and suspect a state timber harvest tax law may be violated, call your Forest Fire Warden, or Concord Forest Protection Headquarters at (603) 271-2217.

If you own forest land, you became responsible for the timber tax payment starting April 1, 1986. This is a change in the Timber Tax Law that will impact all forest landowners. Contact your Board of Selectmen for timber tax forms.

Roy H. Chisholm, Forest Fire Warden

1987 SUMMERFEST REPORT

By mid-July, Greenland's new bandstand on the Green was completed and was dedicated on Sunday, July 19th as part of the Summerfest activities. The bandstand was made possible by the town's people of Greenland who approved it's construction as part of the 1987 Town Budget. Comments from by-standers indicate they liked it and consider it a splendid addition to the town heritage.

The Summerfest itself (July 17-18-19) came to a successful conclusion Sunday evening with a family picnic on the Green and a sing-along concert combined with the bandstand dedication. The 3-day calender of events contained something for everyone, ranging from the annual parade to the storming of the 1937 yellow house.

The Friday night auction, selling a record amount of donated items from the town's cellars and attics, was superbly handled by Dr. Carl Wood and his helpers! The ever-popular "Dunkin Booth" drew ballthrowers of all ages.

All of the events were a delight to the "Fair Goers", but the highlight for many was the Militia enactment of "Live Free or Die"! When the Militia stormed David Engel's house on Park Avenue, which harbored Red Coats and suspected sympathizers, the drama was straight out of the history book. The authentic harrassment of the surviving enemy including the proprietor, brought howls of anguish from grandchildren sitting on the sidelines.

Special thanks go to the School Board and other town officials for the use of the School building and playground. Also we wish to thank the Fire Department for the use of the Fire Hall. The generous contribution of time and effort by the countless people of the town who made this year's Summerfest a success is acknowledged with gratitude.

As always, interested people are invited to join up and participate in staging the 1988 version of the Summerfest.

Respectfully submitted,
David and Priscilla Engel

The 1987 operating budget provided a third patrolman for the Department and Officer Suzanne Mackay began her duties in July. She is currently enrolled in the ten-week Police Academy and is anticipated to return to us in mid-March.

Officer Edward Craig left our Department in October to continue his law enforcement career with the Newington Police Department.

You may have noticed some "new faces" behind the wheel of the cruiser during the past few months. These part-time or Special Officers were added to help in covering these vacancies. And I am currently screening applicants for Officer Craig's replacement and hope to have that position filled by mid-March.

The Department, with the support of the School Board, has initiated the Child Registry program within the school system. This is a nation wide program to aid in the identification of lost or injured children. Your youngster will be bringing home a handbook to be completed and returned to the school for safe-keeping.

The school children recently received a visit from "Officer Phil" and his friends who stressed the importance to follow sound safety procedures and that police officers are available to assist them in many ways. This program was presented with the assistance of the Rockingham Sheriff's Department and sponsored by many local businesses, to whom we express our sincere appreciation.

Sample School District Ballot

TOWN WARRANT 1988 - THE STATE OF NEW HAMPSHIRE

To the inhabitants of the Town of Greenland in the County of Rockingham in said State qualified to vote in Town affairs:

You are hereby notified to meet at Greenland Central School in said Greenland on Tuesday, the eighth day of March next at ten of the clock in the forenoon to act upon the following subjects:

ARTICLE I: To choose all necessary Town officers for the year ensuing and to cast your ballot on the following questions.

- A. Are you in favor of the adoption of Amendment A as proposed by the Planning Board for the Town of Greenland Building Regulations as follows?

Add a Section 7.a, to read as follows:

- 7.a Culverts. All driveway culverts shall be constructed of corrugated steel or reinforced concrete.

(If article passes, re-codify Section 7 (Board of Adjustment) as Section 7.b.)

- B. Are you in favor of the adoption of Amendment B as proposed by the Planning Board for the Town of Greenland Building Regulations as follows?

Amend Section 6(f) (Sewerage), to read as follows:

- (f) Sewerage. All dwelling, condominiums and all other buildings erected or used by the public or as a place of employment or public resort shall be equipped with sewer facilities in compliance with standards of the New Hampshire State Department of Health and the New Hampshire Water Supply and Pollution Control Division, and the Town of Greenland.

(Amendment adds "...Division, and the Town of Greenland" to the current language.)

- C. Are you in favor of the adoption of Amendment C as proposed by the Planning Board for the Town of Greenland Zoning Ordinance as follows?

Amend Article III (Definitions), Section H, to read as follows:

FRONTAGE shall mean the continuous length of the lot bordering on the public right of way.

- D. Are you in favor of the adoption of Amendment D as proposed by the Planning Board for the Town of Greenland Zoning Ordinance as follows?

Change Article IV (Residential District), first paragraph, from "(2) there is an access road at least 20 feet wide owned in fee simple by the applicant(s)..." to "(2) there is an access road at least 20 feet wide owned in fee simple by the lot owner..."

- E. Are you in favor of the adoption of Amendment E as proposed by the Planning Board for the Town of Greenland Zoning Ordinance as follows?

Recodify Article IV.11.IV to Article IV.12.

- F. Are you in favor of the adoption of Amendment F as proposed by the Planning Board for the Town of Greenland Zoning Ordinance as follows?

Amend Article V (Commercial District), Section B.2, to read as follows:

2. Lot Size and Frontage: The minimum lot size and frontage on a town accepted and maintained road or state highway shall be that provided in Article IV, 8 above, plus 20,000 additional square feet of lot area for each additional dwelling unit over one.

(Currently 10,000 additional square feet is required.)

- G. Are you in favor of the adoption of Amendment G as proposed by the Planning Board for the Town of Greenland Zoning Ordinance as follows?

Amend Article V (Commercial District), Section 2, by adding a new paragraph to read as follows:

When commercial or industrial uses abut residential uses or a residential district, all buildings shall be set back at least 50 feet from the side and rear lot lines of abutting residential lot(s).

- H. Are you in favor of the adoption of Amendment H as proposed by the Planning Board for the Town of Greenland Zoning Ordinance as follows?

Amend Article V (Commercial District) and Article VI (Industrial District), by adding Sections V.N.3 and VI.J.3, to read as follows:

Parking Specifications

Travel Lanes: Travel lanes shall not be less than: 22 feet wide for 90 degree angle parking; 18 feet wide for 60 degree angle parking; and 12 feet wide for 45 degree angle parking.

Surface: All parking areas and access drives and aisles shall be surfaced with suitable materials, as determined by the Planning Board.

Landscaping: All parking lots shall have at least ten percent (10%) of the lot area landscaped with trees, shrubs, and similar plant materials.

Islands: The use of landscaped islands to control traffic flow shall be encouraged.

- I. Are you in favor of the adoption of Amendmend I as proposed by the Planning Board for the Town of Greenland Zoning Ordinance as follows?

Amend Article VII (Auto Trailer, Tourist Camp and Park Sites, Auto Trailer and Mobile Homes), by adding a new section to read as follows:

7. Camper(s) shall not remain at a commercial campground for more than fourteen (14) consecutive days in any calender month.

- J. Are you in favor of the adoption of Amendmend J as proposed by the Planning Board for the Town of Greenland Zoning Ordinance as follows?

Amend Article XVI (Quarries and Gravel, Sand, Loam and Borrow Pits), Section 0, to read as follows:

0. SLOPES: No slope shall be left steeper than a ratio of three horizontal units of measurement to one vertical unit of measurement and the slopes shall be maintained at a two-to-one ratio during the progress of the work, following within a reasonable distance from the working face of the quarry or pit; the purpose of this provision is: that the proper grading of the slopes to prevent erosion shall be accomplished properly in a planned progressive manner as the gravel or other material is removed and not left to be done at some indefinite time in the future when digging may have ceased, and to ensure a slope on which topsoil will remain after being replaced until vegetation can take root and permanently hold the topsoil in place. (Amendment changes "...two horizontal units..." to "...three horizontal units...").

- K. Are you in favor of the adoption of Amendment K as proposed by the Planning Board for the Town of Greenland Zoning Ordinance as follows:

Add a new section, to read as follows:

ARTICLE XXIII. WETLANDS CONSERVATION DISTRICT (OVERLAY)

A. Purpose and Intent

The purpose of this article is to protect the public health, safety and general welfare by controlling and guiding the use of land areas which have been found to be saturated or subjected to high water tables for extended periods of time - including established and seasonal wetlands.

It is intended that this article shall:

1. Prevent the development of structures and land uses on naturally occurring wetlands which will contribute to pollution of surface and ground water by sewage or toxic substances or sedimentation;
2. Prevent the destruction of, or significant changes, to natural wetlands which provide flood protection; provide filtration of water flowing into ponds and streams, augment stream flow during dry periods and are connected to the ground or surface water supply;
3. Protect unique and unusual natural areas;
4. Protect wildlife habitats, maintain ecological balances and enhance ecological values such as those cited in RSA 483-A:1-b;
5. Protect potential water supplies and existing aquifers (water bearing stratum) and aquifer recharge areas;
6. Prevent unnecessary or excessive expense to the Town for the purpose of providing and/or maintaining essential services and utilities which might be required as a result of misuse or abuse of wetlands;
7. Encourage those low-intensity uses that can be harmoniously, appropriately and safely located in wetlands;
8. Preserve and enhance the aesthetic values associated with wetlands in the Town of Greenland;
9. Prevent damage to structures and properties caused by inappropriate development in wetlands.

B. Definitions

High Intensity Soil Maps for New Hampshire: The most recent document prepared by the Society of Soil Scientists of Northern New England detailing the standards for making high intensity soil maps. On file with the Rockingham County Conservation District.

Poorly Drained Soil: As defined by the National Cooperative Soil Survey or further defined by High Intensity Soil Maps for New Hampshire. On file with the Rockingham County Conservation District.

Qualified Soil Scientist: A person qualified in soil classification and mapping who is recommended or approved by the New Hampshire State Conservation Committee.

Very Poorly Drained Soils: As defined by the National Cooperative Soil Survey or further detailed by High Intensity Soil Maps for New Hampshire. On file with the Rockingham County Conservation District.

C. Wetlands Defined

Wetlands are areas that are inundated or saturated by surface or ground water at a frequency and duration sufficient to support, and that under normal conditions do support a prevalence of vegetation typically adapted for life in saturated soil conditions. They include, but are not limited to, swamps, bogs, marshes, ponds, lakes, as well as soils that are defined as poorly or very poorly drained.

1. Location of District

The location of a wetland boundary in any particular case must be determined by onsite inspection of soil types and vegetation. This data will be prepared by a qualified soil scientist using the standards of High Intensity Soil Maps for New Hampshire.

2. Boundary Appeals

In the event that the Building Inspector or Conservation Commission questions the validity of the boundaries of a wetland area on a specific parcel of land, or upon the written petition of the owner or any abutter of the said property to the Planning Board, the Board may call upon the services of a qualified soil scientist to examine said area and report the findings to the Planning Board for their determination of the boundary.

Any necessary soil testing procedures shall be conducted at the expense of the landowner or developer. Any costs incurred through such appeals shall be borne by the landowner or developer.

D. Relation to Other Districts

Where the Wetlands Conservation District is superimposed over another zoning district, the more restrictive regulations shall apply.

E. Permitted Uses

1. Poorly Drained Soils: Permitted uses in areas of poorly drained soils are as follows:

- a. Any use otherwise permitted by the Zoning Ordinance and state and federal laws that does not involve the erection of a structure or that does not alter the surface configuration of the land by the addition of fill or by dredging except as a common treatment associated with a non-residential permitted use (listed below).
- b. Agriculture, including grazing, hay production, truck gardening and silage production provided that such use is shown not to cause significant increases in surface or ground water contamination by pesticides or other toxic or hazardous substances and that such use will not cause or contribute to substantial soil erosion.

It is intended that this article shall:

1. Prevent the development of structures and land uses on naturally occurring wetlands which will contribute to pollution of surface and ground water by sewage or toxic substances or sedimentation;
2. Prevent the destruction of, or significant changes, to natural wetlands which provide flood protection; provide filtration of water flowing into ponds and streams, augment stream flow during dry periods and are connected to the ground or surface water supply;
3. Protect unique and unusual natural areas;
4. Protect wildlife habitats, maintain ecological balances and enhance ecological values such as those cited in RSA 483-A:1-b;
5. Protect potential water supplies and existing aquifers (water bearing stratum) and aquifer recharge areas;
6. Prevent unnecessary or excessive expense to the Town for the purpose of providing and/or maintaining essential services and utilities which might be required as a result of misuse or abuse of wetlands;
7. Encourage those low-intensity uses that can be harmoniously, appropriately and safely located in wetlands;
8. Preserve and enhance the aesthetic values associated with wetlands in the Town of Greenland;
9. Prevent damage to structures and properties caused by inappropriate development in wetlands.

B. Definitions

High Intensity Soil Maps for New Hampshire: The most recent document prepared by the Society of Soil Scientists of Northern New England detailing the standards for making high intensity soil maps. On file with the Rockingham County Conservation District.

Poorly Drained Soil: As defined by the National Cooperative Soil Survey or further defined by High Intensity Soil Maps for New Hampshire. On file with the Rockingham County Conservation District.

Qualified Soil Scientist: A person qualified in soil classification and mapping who is recommended or approved by the New Hampshire State Conservation Committee.

Very Poorly Drained Soils: As defined by the National Cooperative Soil Survey or further detailed by High Intensity Soil Maps for New Hampshire. On file with the Rockingham County Conservation District.

C. Wetlands Defined

Wetlands are areas that are inundated or saturated by surface or ground water at a frequency and duration sufficient to support, and that under normal conditions do support a prevalence of vegetation typically adapted for life in saturated soil conditions. They include, but are not limited to, swamps, bogs, marshes, ponds, lakes, as well as soils that are defined as poorly or very poorly drained.

1. Location of District

The location of a wetland boundary in any particular case must be determined by onsite inspection of soil types and vegetation. This data will be prepared by a qualified soil scientist using the standards of High Intensity Soil Maps for New Hampshire.

2. Boundary Appeals

In the event that the Building Inspector or Conservation Commission questions the validity of the boundaries of a wetland area on a specific parcel of land, or upon the written petition of the owner or any abutter of the said property to the Planning Board, the Board may call upon the services of a qualified soil scientist to examine said area and report the findings to the Planning Board for their determination of the boundary.

Any necessary soil testing procedures shall be conducted at the expense of the landowner or developer. Any costs incurred through such appeals shall be borne by the landowner or developer.

D. Relation to Other Districts

Where the Wetlands Conservation District is superimposed over another zoning district, the more restrictive regulations shall apply.

E. Permitted Uses

1. Poorly Drained Soils: Permitted uses in areas of poorly drained soils are as follows:
 - a. Any use otherwise permitted by the Zoning Ordinance and state and federal laws that does not involve the erection of a structure or that does not alter the surface configuration of the land by the addition of fill or by dredging except as a common treatment associated with a non-residential permitted use (listed below).
 - b. Agriculture, including grazing, hay production, truck gardening and silage production provided that such use is shown not to cause significant increases in surface or ground water contamination by pesticides or other toxic or hazardous substances and that such use will not cause or contribute to substantial soil erosion.

- c. Forestry and tree farming to include the construction of access roads for said purpose.
 - d. Wildlife habitat development and managements.
 - e. Recreational uses consistent with the purpose and intent of this Article as defined in Section A, excluding motor-powered recreational vehicles.
 - f. Conservation areas and nature trails.
 - g. Water impoundment and the construction of well water supplies.
 - h. Drainageways to include streams, creeks, or other paths of normal runoff water and common agricultural land drainage.
2. Very Poorly Drained Soils: Permitted use in such areas containing very poorly drained soils, marshes, bogs, open water and major streams are as follows:
- a. Uses specified under Section E.1 (a. through h.) shall be permitted except that no alteration of the surface configuration of the land by filling or dredging and no use which results in the erection of a structure, except as provided for in Section I, shall be permitted.
 - b. The construction of fences, footbridges, catwalks, and wharves only, provided: (1) said structures are constructed on posts or pilings so as to permit unobstructed flow of water; (2) the natural contour of the wetland is preserved; and (3) the Conservation Commission has reviewed and recommended the proposed construction.
3. Lot Size Determination: Areas designated as having poorly drained soils may be used to fulfill 35% of the minimum lot size required by town ordinances and subdivision regulations, provided that the non-wetland area is sufficient in size and configuration to adequately accommodate all required structures including utilities such as sewage disposal and water supply, including primary and auxiliary leach field locations.

No part of areas designated as having very poorly drained soils, or bodies of water, may be used to satisfy minimum lot size.

F. Buffer Provisions

- 1. No septic system, leach field or other waste disposal facility shall be installed within 75 feet of the edge of any poorly drained soil or within 100 feet of the edge of any very poorly drained soil.

2. All construction, forestry and agriculture activities within 100 feet of any wetland shall be undertaken with special care to avoid erosion and siltation into the wetlands. The Planning Board may require an erosion control plan approved by the Rockingham County Conservation District for any project undertaken up-grade of a wetland. No building activity (building does not include septic systems) shall be permitted within 100 feet of any very poorly drained soil and within 50 feet of any poorly drained soil except as provided in subsection 3 of this section. Where required permits from the New Hampshire Water Supply and Pollution Control Commission, under RSA 149:8-a and the Wetlands Board under RSA 483-A shall be obtained.
3. Where an existing building within the buffer zone is destroyed or in need of extensive repair it may be rebuilt provided that such rebuilding is completed within two years of the event causing destruction, the new or rebuilt structure shall not extend further into the wetland or buffer area than the original foundation.

G. Filled Lands and Pre-existing Uses

1. Lands, which may have been wetlands but were filled under properly issued state and town permits granted prior to the adoption of this ordinance, shall be judged according to the soils and flora existing at the site at the time application for building permit or subdivision is made.
2. Structures and uses existing at the time of the adoption of this ordinance may be continued provided that such use shall not be expanded to further encroach upon the wetlands or designated buffer areas.

H. Exemption for Residential Structures

Notwithstanding other provisions of this Article, the construction of additions and extensions to one and two-family dwellings shall be permitted within the Wetlands Conservation District provided that: (1) the dwelling lawfully existed prior to the effective date of this Article; and (2) that the proposed construction conforms with all other applicable ordinances and regulations of the Town of Greenland.

I. Conditional Uses

1. A Conditional Use Permit may be granted by the Planning Board (RSA 674:21 II) for the construction of roads, bridges, and other access ways, and for pipelines, powerlines, and other transmission lines provided that all of the following conditions are found to exist:
 - a. The proposed construction is essential to the productive use of land not within the Wetlands Conservation District.

- b. Design and construction and maintenance methods will be such as to minimize detrimental impact upon the wetland and will include restoration of the site as nearly as possible to its original grade and condition.
 - c. No alternative route which does not cross a wetland or has less detrimental impact on the wetland is feasible.
 - d. Economic advantage shall not be the sole acceptable reason for the proposed construction.
- 2. Prior to the granting of a Conditional Use Permit under this Section, the applicant shall agree to submit a performance security to ensure that all construction is carried out in accordance with an approved design. The Security shall be submitted in a form and amount, with surety and conditions satisfactory to (1) the Planning Board for site plan and subdivision applications and (2) the Board of Selectmen in all other cases. In addition, Town Counsel approval must be obtained. The Security shall be submitted and approved prior to issuance of any permit authorizing construction.
 - 3. The Planning Board, with the concurrence of the Conservation Commission, may require the applicant to submit an environmental impact assessment when necessary to evaluate an application made under this Section. The cost of this assessment shall be borne by the applicant. The Planning Board may also assess the applicant reasonable fees to cover the costs of other special investigative studies and for the review of documents required by particular applications.

J. Special Exceptions

- 1. Water impoundments for the enhancement of a wetland area with a permit from N. H. Water Resources Board.

Where required, permits shall be obtained from the New Hampshire Water Supply and Pollution Control Commission under RSA 149:8-a, the Wetlands Board under RSA 483-A, and the United States Army Corps of Engineers.

- 2. Non-Conforming Lots

Special exception to this ordinance shall be permitted only upon authorization by the Board of Adjustment. In order to permit the erection of a structure within the Wetlands Conservation District on vacant lots, the Board shall find that such exceptions comply with the following requirements and other applicable requirements as set forth in this ordinance:

- a. That the lot upon which an exception is sought was an official lot of record, as recorded in the Rockingham County Registry of Deeds, prior to the date on which this amendment was posted and published in the Town.

- b. That the use for which the exception is sought cannot feasibly be carried out on a portion or portions of the lot which are outside the Wetlands Conservation District.
- c. That due to the provisions of the Wetlands Conservation District, no reasonable and economically viable use of the lot can be made without the exception.
- d. That the design and construction of the proposed use will, to the extent practical, be consistent with the purpose and intent of this Article.
- e. That the proposed use will not create a hazard to individual or public health, safety and welfare due to the loss of wetland, the contamination of groundwater, or other reason.

The Board of Adjustment may themselves, or upon petition from the Building Inspector, Conservation Commission or abutters, hire a qualified consultant or consultants to prepare such studies as are necessary to determine whether the conditions set forth above have been met. The cost of such studies shall be borne by the applicant.

3. Procedure

Special Exceptions shall only be granted by the Board of Adjustment, after due public notice and public hearing for undertaking the preceding uses in the Wetlands Conservation District, when the application has been referred to the Planning Board, the Conservation Commission, and to the Health Officer for review and comment at least twenty (20) days prior to the hearing.

K. Other Provisions

- 1. The Building Inspector shall not issue any permit for construction within the Wetlands Conservation Overlay District unless such activity conforms with the provisions of this Article. The Board of Selectmen shall have the power to enforce this Article and violations may be punishable by fines as provided by RSA 676:17.
- 2. Any wetlands altered in violation of this ordinance shall be restored at the expense of the violator(s) as provided by RSA 483-A:5.

L. Are you in favor of the adoption of Amendment L as proposed by the Planning Board for the Town of Greenland Zoning Ordinance as follows?

Add a new section, to read as follows:

Article XXIV (XXIII, if Article 16 fails). FLOODPLAN DISTRICT (OVERLAY)

The following regulations shall apply to all lands designated as special flood hazard areas by the Federal Emergency Management Agency in its "Flood Insurance Study for the Town of Greenland, NH" dated February 21, 1974, together with any revised Flood Insurance Rate Maps and Flood Boundary and Floodway maps of the Town of Greenland, NH.

I. Definition of Terms

"Area of special flood hazard: is the land in the flood plain within a community subject to a one percent or greater chance of flooding in any given year. The area is designated as Zone A on the FHBM.

"Base flood" means the flood having a one percent chance of being equalled or exceeded in any given year.

"Basement" means any area of the building having its floor subgrade (below ground level) on all sides.

"Building" - see "structure".

"Development" means any man-made change to improved or unimproved real estate, including but not limited to buildings or other structures, mining, dredging, filling, grading, paving, excavation or drilling operations.

"Flood Boundary and Floodway Map" (FLOODWAY) is an official map of the community, on which the Federal Emergency Management Agency has delineated the "Regulatory Floodway". This map should not be used to determine the correct flood hazard zone or base flood elevation, the Flood Insurance Rate Map (FIRM) will be used to make determinations of flood hazard zones and base flood elevations.

"Flood elevation study" means an examination evaluation and determination of flood hazards and, if appropriate, corresponding water surface elevations, or an examination, evaluation and determination of mudslide (i. e., mudflow) and/or flood-related erosion hazards.

"Flood Hazard Boundary Map" (FHBM) means an official map of a community issued by the Federal Emergency Management Agency, where the boundaries of the flood, mudslide (i. e., mudflow) related erosion areas having special hazards have been designated as Zone A.

"Flood Insurance Study" see "flood elevation study".

"Flood plain" or "flood-prone area" means any land area susceptible to being inundated by water from any source.

"Flood proofing" means any combination of structural and non-structural additions, changes, or adjustments to structures which reduce or eliminate flood damage to real estate

or improved real property, water and sanitary facilities, structures and their contents.

"Floodway" see "regulatory floodway".

"Highest adjacent grade" means the highest natural elevation of the ground surface prior to construction next to the proposed walls of a structure.

"Lowest floor" means the lowest floor of the lowest enclosed area (including basement). An unfinished or flood resistant enclosure, usable solely for parking of vehicles, building access or storage in an area other than a basement area is not considered a building's lowest floor: Provided, that such enclosure is not built so as to render the structure in violation of the applicable non-evaluation design requirements of this ordinance.

"Mean sea level" means, for purposes of the National Flood Insurance Program, the National Geodetic Vertical Datum (NGVD) of 1929 or other datum, to which base flood elevations shown on a community's Flood Insurance Rate Map are referenced.

"Manufactured home" means a structure, transportable in one or more sections, which is built on a permanent chassis and is designed for use with or without a permanent foundation when connected to the required utilities. For flood plain management purposes the term "manufactured home" also includes park trailers, travel trailers, and other similar vehicles placed on a site for greater than 180 consecutive days. For insurance purposes the term "manufactured home" does not include park trailers, travel trailers, and other similar vehicles.

"Manufactured home park or subdivision" means a parcel (or contiguous parcels) of land divided into two or more manufactured home lots for rent or sale.

"100-year flood" see "base flood".

"Regulatory floodway" means the channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than one foot at any point. These areas are designated as floodways on the Flood Boundary and Floodway Maps.

"Riverine" means relating to, formed by, or resembling a river (including tributaries), stream, brook, etc.

"Special flood hazard area" means an area having special flood, mudslide (i. e., mudflow) and/or flood-related erosion hazards, and shown on an FHBM. (See Area of Special Flood Hazard)

"Structure" means for floodplain management purposes, a walled and roofed building, including a gas or liquid storage tank, that is principally above ground, as well as a manufactured home.

"Start of Construction" includes substantial improvement, and means the date the building permit was issued, provided the actual start of construction, repair, reconstruction, placement, or other improvement was within 180 days of the permit date. The actual start means either the first placement of permanent construction of a structure on a site, such as the pouring of slab or footings, the installation of piles, the construction of columns, or any work beyond the stage of excavation; or the placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; or does it include excavation for a basement, footings, piers, or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure.

"Substantial improvement" means any combination of repairs, reconstruction, alteration, or improvements to a structure in which the cumulative cost equals or exceeds fifty percent of the market value of the structure. The market value of the structure should be (1) the appraised value of the structure prior to the start of the initial repair or improvement, or (2) in the case of damage, the value of the structure prior to the damage occurring. For the purposes of this definition, "substantial improvement" is considered to occur when the first alteration of any wall, ceiling, floor, or other structural part of the building commences, whether or not that alteration affects the external dimensions of the structure. The term does not, however, include any project for improvement of a structure required to comply with existing health, sanitary, or safety code specifications which are solely necessary to assure safe living conditions or any alteration of a structure listed on the National Register of Historic Places.

"Water surface elevation" means the height, in relation to the National Geodetic Vertical Datum (NGVD) of 1929, (or other datum, where specified) of floods of various magnitudes and frequencies in the flood plains of coastal or riverine areas.

- II. All proposed development in any special flood hazard areas shall require a permit.
- III. The Building Inspector shall review all building permit applications for new construction or substantial improvements to determine whether proposed building sites will be

reasonably safe from flooding. If a proposed building site is in a flood-prone area, all new construction and substantial improvements shall (i) be designed (or modified) and adequately anchored to prevent flotation, collapse, or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy, (ii) be constructed with materials resistant to flood damage, (iii) be constructed by methods and practices that minimize flood damage, and (iv) be constructed with electrical, heating, ventilation, plumbing and air conditioning equipment and other service facilities that are designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding.

- IV. Where new and replacement water sewer systems (including on-site systems) are proposed in floodprone areas the applicant shall provide the Building Inspector with assurance that new and replacement sanitary sewage systems will be designed to minimize or eliminate infiltration of flood waters into the systems and discharges from the systems into flood waters, and on-site waste disposal systems will be located to avoid impairment to them or contamination from them during periods of flooding.
- V. The Building Inspector shall maintain for public inspection, and furnish upon request, any certification of flood-proofing and the as built elevation (in relation to mean sea level) of the lowest floor (including basement) of all new or substantially improved structures, and include whether or not such structures contain a basement. If the structure has been floodproofed, the as built elevation (in relation to mean sea level) to which the structure was floodproofed. This information must be furnished by the applicant.
- VI. The Building Inspector shall review proposed developments to assure that all necessary permits have been received from those governmental agencies from which approval is required by Federal or State law, including Section 404 of the Federal Water Pollution Control Act Amendments of 1972, 33 U.S.C. 1334. It shall be the responsibility of the applicant to certify these assurances to the Building Inspector.
- VII. In riverine situations, prior to the alteration or relocation of a watercourse, the applicant for such authorization shall notify the Wetlands Board of the New Hampshire Environmental Services Department and submit copies of such notification to the Building Inspector. Further, the applicant shall be required to submit copies of said notification to those adjacent communities as determined by the Building Inspector.

Within the altered or relocated portion of any watercourse, the applicant shall submit to the Building Inspector, certification provided by a registered professional engineer assuring that the flood carrying capacity of the watercourse has been maintained.

Along water-courses that have a designated Regulatory Floodway no encroachments, including fill, new construction, substantial improvements, and other development are allowed within the designated Regulatory Floodway that would result in any increase in flood levels within the community during the base flood discharge. In Zone A the Building Inspector shall obtain, review, and reasonably utilize any floodway data available from a Federal, State, or other source as criteria for requiring that development meet the floodway requirements of this section.

- VIII. 1. In special flood hazard areas (Zone A) the Building Inspector shall determine the 100 year flood elevation by utilizing any 100 year flood elevation data available from Federal, State, development proposals submitted to the community (example subdivisions, site approvals, etc.) or other source.
2. The Building Inspector's 100 year flood elevation determination will be used as criteria for requiring in Zone A that:
- a. all new construction and substantial improvements of residential structures have the lowest floor (including basement) elevated to or above the 100 year flood level;
 - b. that all new construction and substantial improvements of non-residential structures have the lowest floor (including basement) elevated to or above the 100 year flood level; or together with attendant utility and sanitary facilities, shall:
 - (i) be floodproofed so that below the 100 year flood elevation the structure is watertight with walls substantially impermeable to the passage of water;
 - (ii) have structural components capable of resisting hydrostatic and hydrodynamic loads and the effects of buoyancy; and
 - (iii) be certified by a registered professional engineer or architect that the design and methods of construction are in accordance with accepted standards of practice for meeting the provisions of this section;
 - c. all manufactured homes to be placed or substantially improved within special flood hazard areas shall be elevated on a permanent foundation such that the lowest floor of the manufactured home is at or above the base flood level; and be securely anchored to resist flotation, collapse, or lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors. This requirement is in addition to applicable state and local anchoring requirements for resisting wind forces;

- d. for all new construction and substantial improvements, fully enclosed areas below the lowest floor that are subject to flooding are permitted providing the enclosed areas meet the following requirements: (1) the enclosed area is unfinished or flood resistant, useable solely for parking of vehicles, building access or storage; (2) the area is not a basement; (3) shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwaters. Designs for meeting this requirement must either be certified by a registered professional engineer or architect or must meet or exceed the following minimum criteria: A minimum of two openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding shall be provided. The bottom of all openings shall be no higher than one foot above grade. Openings may be equipped with screens, louvers, or other coverings or devices provided that they permit the automatic entry and exit of floodwaters.
- e. proposed structures to be located on slopes in Special Flood Hazard Areas shall include adequate drainage paths to guide flood waters around and away from the proposed structures.

M. Are you in favor of the adoption of Amendment M as proposed by petition of voters of this Town for the Greenland Zoning Ordinance, as follows?

Zone Three. Limited Commercial

To rezone, from Residential District to Limited Commercial Zone 3, the lands lying on both sides of Portsmouth Avenue (known as Route 101) as follows:

- (1) 500 foot depth on south side of Route 101 extending westerly from present commercial zone boundary to easterly side of Willowbrook Avenue; provided, however, that due to topography of Lot 31, Map R-10 (known as 1039 Portsmouth Ave.), the boundary of zone 3 will follow Lot 31 boundaries where such boundaries extend more than 500 feet southerly of Route 101.
- (2) 500 foot depth on north side of Route 101 extending easterly from Stratham town line to include all land within such 500 foot depth now or recently owned by James Kroitzsh (Lots 13 and 31, Map R-11) and thus extending easterly to the boundary of land now or formerly owned by Eve Robinson (Lot 33, Map R-10).

As a limited commercial district, restrictions shall exist which will prohibit the use of this land for mobile home parks, apartment houses, service stations or truck stops.

The Planning Board will have final approval of architectural design, landscaping and traffic safety patterns to preserve the rural aesthetics of the town prior to granting permits for construction."

(Current "Zone Three" (Industrial District) would be renamed "Zone Four" if amendment passes.)

Recommended by the Planning Board

- N. Are you in favor of the adoption of Amendment N as proposed by petition of voters of this Town for the Greenland Zoning Ordinance, as follows:

Are you in favor of rezoning that portion of the Commercial District from Commercial to Residential consisting of a parcel of land situated near the dump, including a large gravel pit near the dump. Tax Map U230 (1978), commonly known as Vickery's Pit."

(Amendment relates to "Zone Two. Commercial District.")

Not Recommended by the Planning Board

- O. Are you in favor of the adoption of Amendment O as proposed by petition of voters of this Town for the Greenland Zoning Ordinance, as follows:

Are you in favor of amending the first paragraph of the Appendix to the Greenland Zoning Ordinance under Zone Two Commercial District to read as follows:

Zone Two shall be the Commercial District and shall be the area as shown on the Town Map on file with the Town Clerk and described as follows:

It shall include all lands within 500 feet of Portsmouth Avenue, beginning at a point 500 feet west of the intersection of Winnicut Road, Bayside Road, and Portsmouth Avenue, easterly and north-easterly along Portsmouth Avenue to the railroad crossing, except that portion of Portsmouth Avenue beginning at the junction of Portsmouth Avenue and Route 101 on the west and ending at the property lines between the property of Ruth Barnes and Stanley Thompson on the east, which shall be the Residency District.

Not Recommended by the Planning Board

The polls will open at 10:00 AM and will close no earlier than 6:00 PM to cast your ballots on Article 1

ABSENTEE BALLOTS FOR ARTICLE 1 ARE AVAILABLE FROM THE TOWN CLERK DURING REGULAR OFFICE HOURS.

Article 2 To hear the report of the Town Clerk on the results of your ballot in the election of town officers and the disposition of the questions on referendum.

DISCUSSION AND ACTION ON OTHER ARTICLES IN THE WARRANT WILL TAKE PLACE AT GREENLAND CENTRAL SCHOOL ON THURSDAY, MARCH 10, 1988, IN THE EVENING BEGINNING AT 8:00 PM.

Article 3 To fix the salaries of the Town Officers and to raise and appropriate the estimated sum of \$34,785.00 in payment of salaries and commissions.

Recommended by the Budget Committee

Article 4 To raise and appropriate the sum of money necessary to defray town charges for the ensuing year. The estimated amount for town charges is \$756,159.00.

Recommended by the Budget Committee

Article 5 To see if the Town will vote to authorize the Selectmen to grant a discount on the payment of property taxes. The discount rate to be 3% if paid within 14 days and 1% if paid within 30 days of postmark.

Article 6 To see if the Town will vote to raise and appropriate a sum not to exceed \$76,000 (seventy-six thousand) Dollars and to see if the Town will vote to appropriate a sum not to exceed \$99,000 (ninety-nine thousand) Dollars for the purchase of app. 24± acres of land from Steve Vickery to be used as cemetery land. Said land is shown on Greenland Tax Map U-2 and shown as lot U-2-3A, U-2-3, U-2-4, and a portion of lot U-2-12. Said lot contains 24± acres.

Recommended by the Budget Committee

Said amount to be raised (ninety-nine thousand dollars) through the issuance of a bond or several notes payable one each year under and in accordance with the provisions of the Municipal Finance Act and Amendments thereto, and authorize the Selectmen to issue and negotiate such bonds or notes, and to determine the time and place of payment thereof under such terms and conditions as they deem to be in the best interest of the Town.

Article 7 To see if the Town will vote to raise and appropriate a sum not to exceed \$175,000 (one hundred seventy-five thousand) Dollars for the purchase of app. 24± acres of land from Steve Vickery to be used as cemetery land. Said land is shown on Greenland Tax Map as U-2-3A, U-2-3, U-2-4, and a portion of lot U-2-12. Said land contains 24± acres.

Recommended by the Budget Committee

Article 8 To see if the town will authorize the Selectmen to accept private donations of land, interest in land or money to be deposited into the conservation fund for the purpose of contributing to the local matching portion required for acquiring conservation land or interest in land and other costs associated therewith for permanent conservation use under the N. H. Land Conservation Investment Program (LCEP) RSA 221-A, and authorize the Selectmen to apply for and accept the state matching funds under the LCEP for the purposes of acquisition of the fee or lesser interest in conservation land. Said appropriated or donated funds and state matching funds may be expended by majority vote of the Conservation Commission.

Article 9 Are you in favor of authorizing the Greenland Recreation Commission to investigate the cost of Constructing a boat launching ramp at the end of Tide Mill Road for launching of boats into the Winnicut River?

Submitted by petition of David Engel and others

Article 10 Are you in favor of reclassifying that portion of Tide Mill Road between Route 101 and the Winnicut River which is now classified as closed subject to gates and bars to a Class VI highway?

Submitted by petition of David Engel and others

Article 11 To see if the Town will vote to authorize the Selectmen, Road Agent and Planning Board Chairman to accept as town roads any road which may be completed during the year which has been approved by the Town Planning Board, constructed in accordance with required specifications and approved as to construction by the Town Road Agent and as to which the land on which such roads are located is duly deeded to the Town. Such approval by the Selectmen, Road Agent and Planning Board Chairman shall be recorded with the Town Clerk.

Article 12 To see if the Town will vote to authorize the Selectmen to borrow money on short term notes in anticipation of taxes.

Article 13 To see if the Town will authorize the Board of Selectmen to appoint a committee consisting of five members, one being a Selectmen, one being the Chairman of the Conservation Commission and three Members at Large who are not members of any town board to be a feasibility study committee to determine the feasibility of the Town of Greenland purchasing the former Vickery Pit Property located behind the Greenland Town Office and further to report their findings to the Greenland Board of Selectmen.

Submitted by petition of Harland L. Boardman and others

Article 14 To see if the Town of Greenland will vote to raise and appropriate the sum of \$300 for the purpose of defraying the cost of services provided to the Town of Greenland and its residents by Seacoast Big Brother/Big Sister of New Hampshire.

Submitted by petition of Sue Lyndes and others

Article 15 To see if the Town will vote to raise and appropriate a sum not to exceed \$25,000 (twenty-five thousand) Dollars for the purchase of a Utility vehicle and related body for use by the Fire Department.

Recommended by the Budget Committee

Article 16 Shall we adopt optional adjusted elderly exemptions from property tax? The optional exemptions, based on assessed value, for qualified taxpayers shall be as follows:

For a person 65 years of age up to 75 years,	\$20,000
For a person 75 years of age up to 80 years,	\$40,000
For a person 80 years of age or older	\$80,000

To qualify, the person must have been a New Hampshire resident for at least 5 years; own the real estate individually or jointly, or if the real estate is owned by his spouse, they must have been married for at least 5 years. In addition, the taxpayer must have a net income of less than \$10,000 or, if married a combined net income of less than \$12,000; and own net assets of \$100,000, excluding the value of the person's residence.

Submitted by petition of Lauren Smith and others

Article 17 To see if the Town will vote to authorize the Planning Board to prepare and subsequently amend a recommended program of municipal capital improvement projects projected over a period of at least six (6) years to aid the Budget Committee and the Board of Selectmen in their consideration of the annual budget, all as authorized by RSA 674:5-8.

Article 18 To see if the Town will vote to authorize the Planning Board to review and approve site plans for the development of tracts for non-residential uses or for multi-family dwelling units, as authorized by RSA 674:43; and to prepare Site Plan Review Regulations, as authorized by RSA 674:44.

Article 19 To see if the Town will vote to recind the provisions of Municipal Budget Law - Chapter 32 of New Hampshire Revised Statutes Annotated.

Article 20 Shall we adopt the provisions of RSA 72:1-C which authorize any Town or City to elect not to assess, levy and collect a resident tax?

Article 21 Shall we adopt the provisions of RSA 80:58-86 for a real estate tax lien procedure? These statutes provide that tax sales to private individuals for non-payment of property taxes on real estate are replaced with a real estate tax lien procedure under which only a municipality or county where the property is located or the state may acquire a tax lien against land and buildings for unpaid taxes.

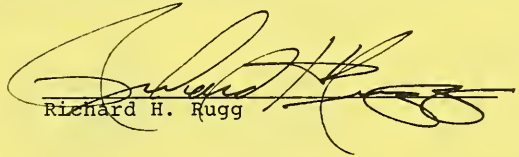

Submitted by petition of Richard H. Rugg and others

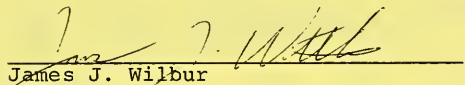

Article 22 To see if the Town will vote to authorize the Board of Selectmen to apply for, accept and expend, without further action by the Town meeting, money from the State, Federal or other governmental unit, or private source which becomes available during the year. Acceptance and expenditures of such money shall be in accordance with the procedures set forth in RSA 31:95-b.

Article 23 To see if the Town will vote to authorize the Selectmen to transfer tax liens and convey property acquired by the Town by Tax Collector's deed by advertising sealed bids, or in such manner as the Selectmen may determine is most just and appropriate.

Article 24 To take any other action that may legally come before the meeting.

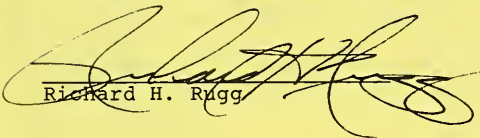

Given under our hands and seal the seventeenth day of February,
the year of our Lord nineteen hundred and eighty eight.

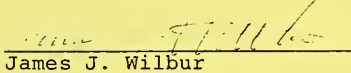

Richard H. Rugg

James J. Wilbur

Selectmen, Greenland, N. H.

EXTRACTS FROM MUNICIPAL BUDGET ACT - RSA 32

32:4 AUTHORITY OF BUDGET COMMITTEE. In any town which has adopted the provisions of the municipal budget law, in addition to its other duties hereunder, the budget committee shall prepare a budget for any village district or precinct wholly within the boundaries of said town. The limitations upon town appropriations, provided by this chapter shall apply to appropriations for said districts or precincts and the commissioners of any such district or precinct shall be subject to the provisions of this chapter as other spending agencies of said town. In case of sudden and unexpected emergency the commissioners may apply to the Commissioner of Revenue Administration for a certificate of emergency, as selectmen may do in the case of a town.

32:5 PREPARATION OF BUDGETS. Selectmen, school boards, village district commissioners, all governmental officers, and department heads, including officers of such self-sustaining departments as water, sewer, and electric departments shall prepare a statement of estimated expenses and receipts for the ensuring fiscal year and submit the same to the budget committee at such time as the budget committee shall fix. Department heads and other officers shall submit their departmental statements of estimated expenditures and receipts to their respective governing boards before submission thereof to the budget committee. All moneys appropriated by the town, school district or village district shall be stipulated in the budget on a "gross" basis, showing revenues from all sources, including grants, gifts, bequests and bond issues, as offsetting revenues to appropriations affected. Upon receipt of the foregoing estimates of expenditures and receipts, the budget committee shall confer with selectmen, school boards, village district commissioners, and other officers and departments relative to estimated costs, revenues anticipated, and services performed; and it shall be the duty of all such officers and other persons to furnish such pertinent information to the budget committee. The budget committee shall thereafter prepare budgets according to rules which shall be adopted by the commissioner of revenue administration, pursuant to RSA 541-A, relative to the required forms and information to be submitted for town expenditures, school district expenditures and village district expenditures. *Such budget forms shall include a separate column which indicates the recommended budget of the selectmen, school board or village district commissioners.* It shall hold at least one public hearing on each budget, not later than 25 days before each annual or special meeting, public notice, and time of which shall be given at least 7 days in advance. After the public hearing, the budget committee shall prepare and submit to the selectmen, at least 20 days before the annual town meeting, for them to post with the town warrant, 2 copies of the budget prepared for the town, and 2 copies of other special items for purposes not included within the budget but which were requested by the selectmen, or by petition, and which the committee does not wish to recommend, but upon which the voters at the town meeting are hereby entitled to vote. It shall likewise prepare and submit to the school board, or village district commissioners, at least 20 days before said annual meetings for posting by the school board or the village district commissioners with the warrants for their respective meetings, 2 copies of a school district or village district budget to be acted upon at the school village district annual meetings, and 2 copies of other special items for purposes not included within the budget but which were requested by the members of the school board or village district commissioners, or by petition, and which the committee does not wish to recommend, but upon which the voters at the school board or village district meeting are hereby entitled to vote. The budget committee shall not insert additional purposes of expenditures in any recommended budget at or after the public hearings required in this section, without first holding one or more public hearings on supplemental budget requests for town, school district or village district expenditures.

32:8 LIMITATION OF APPROPRIATIONS. So long as the provisions of this chapter shall remain in force in any town the total amount appropriated at any annual meeting shall not exceed by more than ten percent the total amount specified in the budget for said meeting, and no appropriation shall be made for any purpose not included in said budget or in the warrant for the annual meeting. Money may be raised and appropriated for such items, but not to an amount which would increase the total appropriations, as recommended by the budget committee, by more than the ten percent allowed hereunder. The ten percent increase herein allowable above the total amount specified in the budget for said meeting shall be computed on the total amount recommended less that part of any appropriation item which constitutes fixed charges. Fixed charges shall include appropriations for:

- I. Bonds, and all interest and principal payments thereon;
- II. Notes, except tax anticipation notes, and all interest and principal payments thereon;
- III. Mandatory assessments imposed on towns, by the county, state or federal governments.

Amend the Zone Two Commercial District by re-zoning land along Portsmouth Ave. (from the Portsmouth Avenue/Rte. 101 intersection East for approximately 1/4 mile) to Residential.
- YES ☐
NO ☐
- NOT RECOMMENDED BY THE PLANNING BOARD

(FULL TEXT OF ABOVE AMENDMENTS ARE AVAILABLE FOR PUBLIC INSPECTION AT THE TOWN OFFICE, AND WILL BE POSTED WITH WARRANT FOR INSPECTION BY VOTERS AT THE VOTING PLACE.)

GREENLAND SCHOOL DISTRICT WARRANT

ELECTION OF OFFICERS

1988

The State of New Hampshire

To the Inhabitants of the School District of the Town of Greenland in the County of Rockingham and State of New Hampshire, qualified to vote upon District Affairs:

YOU ARE HEREBY NOTIFIED TO MEET AT THE GREENLAND CENTRAL SCHOOL IN SAID DISTRICT ON TUESDAY, THE 8TH DAY OF MARCH, 1988, AT 10:00 O'CLOCK IN THE A.M. TO VOTE FOR DISTRICT OFFICERS.

1. To choose a Moderator for the ensuing year.
2. To choose a Clerk for the ensuing year.
3. To choose a Treasurer for the ensuing year.
4. To choose one member of the school board for the ensuing three years.

POLLS WILL NOT CLOSE BEFORE 6:00 p.m.

The foregoing procedure calling for election of your District Officers at the Annual Town Meeting is authorized by statute (RSA 197:1-a) and was adopted by the District at its 1966 annual meeting.

GIVEN UNDER OUR HANDS AND SEALS AT SAID GREENLAND THE 15th DAY OF FEBRUARY, 1988.

SCHOOL BOARD

GREENLAND SCHOOL DISTRICT WARRANT

1988

The State of New Hampshire

To the Inhabitants of the School District of the Town of Greenland in the County of Rockingham, and State of New Hampshire, qualified to vote upon District affairs: YOU ARE HEREBY NOTIFIED TO MEET AT THE GREENLAND CENTRAL SCHOOL IN SAID DISTRICT ON SATURDAY, THE 12TH DAY OF MARCH, AT 8:00 P.M. TO ACT ON THE FOLLOWING ARTICLES.

ARTICLE 1. To hear the reports of Agents, Auditors, Committees, or Officers heretofore chosen, and pass any vote relating thereto.

ARTICLE 2. To see if the District will vote to authorize the school board to receive and expend on behalf of the District, any or all grants or offers for educational purposes which may now or hereafter be forthcoming from the State of New Hampshire or any agencies thereof, the United States Government or any agency thereof, or any private agency.

ARTICLE 3. To see if the District will raise and appropriate the sum of Ten Thousand Dollars (\$10,000) as a contingency fund as provided under RSA 198:4-1. (Recommended by the Budget Committee.)

ARTICLE 4. To see if the district will raise and appropriate the sum of Seventy-five Thousand Dollars (\$75,000) to fund a deficit appropriation in accordance with RSA 32:10-a. (Recommended by the Budget Committee.)

ARTICLE 5. To see what sum of money the District will vote to raise and appropriate for the support of schools, for payment of salaries, for obligations of such sums as are estimated to be received from the state equalization fund together with other income, the school board to certify to the selectmen the balance between estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

ARTICLE 6. To transact any further business that may legally come before the meeting.

GIVEN UNDER OUR HANDS AND SEALS AT SAID GREENLAND THIS 15TH DAY OF FEBRUARY, 1988.

A true copy of warrant--Attest /s/

EXTRACTS FROM MUNICIPAL BUDGET ACT-RSA 32

32:4 AUTHORITY OF BUDGET COMMITTEE. In any town which has adopted the provisions of the municipal budget law, in addition to its other duties hereunder, the budget committee shall prepare a budget for any village district or precinct wholly within the boundaries of said town. The limitations upon town appropriations, provided by this chapter, shall apply to appropriations for said districts or precincts and the commissioners of any such district or precinct shall be subject to the provisions of this chapter as other spending agencies of said town. In case of sudden and unexpected emergency the commissioners may apply to the Department of Revenue Administration for a certificate of emergency, as selectmen may do in the case of a town.

32:5 PREPARATION OF BUDGETS. Selectmen, school boards, village district commissioners, all governmental officers, and department heads, including officers of such self sustaining departments as water, sewer, and electric departments shall prepare a statement of estimated expenses and receipts for the ensuing fiscal year and submit the same to the budget committee at such time as the budget committee shall fix. Department heads and other officers shall submit their departmental statements of estimated expenditures and receipts to their respective governing boards before submission thereof to the budget committee. All moneys appropriated by the town, school district or village district shall be stipulated in the budget on a "gross" basis, showing revenues from all sources, including grants, gifts, bequests and bond issues, as offsetting revenues to appropriations affected. Upon receipt of the foregoing estimates of expenditures and receipts, the budget committee shall confer with selectmen, school boards, village district commissioners, and other officers and departments relative to estimated costs, revenues anticipated, and services performed; and it shall be the duty of all such officers and other persons to furnish such pertinent information to the budget committee. The budget committee shall thereafter prepare budgets according to rules which shall be adopted by the commissioner of revenue administration, pursuant to RSA 541-A, relative to the required forms and information to be submitted for town expenditures, school district expenditures and village district expenditures. *Such budget forms shall include a separate column which indicates the recommended budget of the selectmen, school board or village district commissioners.* It shall hold at least one public hearing on each budget, not later than 25 days before each annual or special meeting, public notice, and time of which shall be given at least 7 days in advance. After the public hearing, the budget committee shall prepare and submit to the selectmen, at least 20 days before the annual town meeting, for them to post with the town warrant, 2 copies of the budget prepared for the town, and 2 copies of other special items for purposes not included within the budget but which were requested by the selectmen, or by petition, and which the committee does not wish to recommend, but upon which the voters at the town meeting are hereby entitled to vote. It shall likewise prepare and submit to the school board, or village district commissioners, at least 20 days before said annual meetings for posting by the school board or the village district commissioners with the warrants for their respective meetings, 2 copies of a school district or village district budget to be acted upon at the school village district annual meetings, and 2 copies of other special items for purposes not included within the budget but which were requested by the members of the school board or village district commissioners, or by petition, and which the committee does not wish to recommend, but upon which the voters at the school board or village district meeting are hereby entitled to vote. The budget committee shall not insert additional purposes of expenditures in any recommended budget at or after the public hearings required in this section, without first holding one or more public hearings on supplemental budget requests for town, school district or village district expenditures.

32:8 LIMITATION OF APPROPRIATIONS. So long as the provisions of this chapter shall remain in force in any town the total amount appropriated at any annual meeting shall not exceed by more than ten percent the total amount specified in the budget for said meeting, and no appropriation shall be made for any purpose not included in said budget, provided, however, that the budget committee may also submit, without approval items which they do not wish to recommend but which they believe the voters should be allowed to consider and act upon, either favorably or unfavorably. Money may be raised and appropriated for such items, but not to an amount which would increase the total appropriations, as recommended by the budget committee, by more than the ten percent allowed hereunder. The ten percent increase herein allowable above the total amount specified in the budget for said meeting shall be computed on the total amount recommended less that part of any appropriation item which constitutes fixed charges. Fixed charges shall include appropriations for:

- I. Bonds, and all interest and principal payments thereon;
- II. Notes, except tax anticipation notes, and all interest and principal payments thereon,
- III. Mandatory assessments imposed on towns, by the county, state or federal governments.

Selectmen
Town of Greenland
Greenland, NH 03840

I have examined the combined financial statements of the Town of Greenland, New Hampshire and its combining and individual fund financial statements as of and for the year ended December 31, 1986. As a part of my examination I made a study and evaluation of the Town's system of internal accounting control to the extent I considered necessary to evaluate the system as required by generally accepted auditing standards. Under these standards the purpose of such evaluation is to establish a basis of reliance on the system of the internal accounting control in determining the nature, timing and extent of other auditing procedures that are necessary for expressing an opinion on the financial statements.

My study and evaluation of the system of internal accounting control was made for the purpose set forth in the paragraph above and accordingly would not necessarily disclose all weaknesses in the system because it was based upon selective tests of the accounting records and related data. As a result of this study and evaluation I have noted no particular areas where improvements can be made to strengthen the system of internal accounting control.

At this time I wish to thank the Town Officials, especially Mrs. Shirley Moonhout, Mrs. Edna Weeks and Mr. Duncan Brackett for the cooperation and courtesy shown my staff during the course of the engagement.

Irene R. Lebel

Irene R. Lebel
Certified Public Accountant

54 Court Street - Portsmouth, New Hampshire 03804
603 436-8110

Board of Selectmen
Town of Greenland
Greenland, NH 03840

I have examined the combined financial statements of the Town of Greenland and its combining and individual fund financial statements as of and for the year ended December 31, 1986, as listed in the table of contents. My examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures that I considered necessary in the circumstances.

The Town has not maintained a record of its general fixed assets and accordingly a statement of general fixed assets, required by generally accepted accounting principles is not presented in the financial report.

In my opinion, the combined financial statements referred to above present fairly the financial position of the Town of Greenland at December 31, 1986, and the results of its operations and the changes in financial position of its proprietary fund types and similar Trust Funds for the year then ended, in conformity with generally accepted accounting principles applied on a consistent basis. Also, in my opinion, the combining and individual fund financial statements referred to above present fairly the financial position of the individual funds of the Town of Greenland at December 31, 1986, their results of operations and the changes in financial position of individual proprietary funds for the year then ended, in conformity with generally accepted accounting principles applied on a consistent basis.

Irene R. Lebel

TOWN OF GREENLAND, NEW HAMPSHIRE
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1986

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Fund Accounting

The diverse nature of governmental operations and the necessity of determining compliance with legal provisions requires modification of accounting systems commonly used by commercial enterprises. Rather than establishing a single unified set of accounts to record and summarize all financial transactions, the accounts of the Town are organized on the basis of funds, each of which is considered a separate entity with self-balancing accounts that comprise its assets, liabilities, fund balance, revenues and expenditures, including obligations and transfers. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped, in the financial statements in this report, as follows:

Governmental Funds

General Fund - The General Fund is the general operating fund of the Town. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Funds - Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than special assessments, expendable trusts, or major capital projects) that are legally restricted to expenditures for specified purposes.

Fiduciary Funds

Trust & Agency Funds - Trust & Agency Funds are used to account for assets held by the Town in a trustee capacity or as an agent for other governmental units. These include Expendable Trusts, Non-expendable Trusts and Agency Funds. Non-expendable Trusts are accounted for in essentially the same manner as proprietary funds, while Expendable Trusts are accounted for similar to governmental funds. Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

TOWN OF GREENLAND, NEW HAMPSHIRE
NOTES TO FINANCIAL STATEMENTS (Cont'd)
DECEMBER 31, 1986

Basis of Accounting (Cont'd)

All Governmental Funds and Expendable Trust Funds are accounted for using the modified accrual basis of accounting. Their revenues are recognized when they become measurable and available as net current assets. Taxpayer-assessed income, gross receipts and sales taxes are considered "measurable" when in the hands of intermediary collecting governments and are recognized as revenue at that time. Anticipated refunds of such taxes are recorded as liabilities and reductions of revenue when they are measurable and their validity seems certain.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. Exceptions to this general rule include: (1) accumulated unpaid vacations, sick pay and other employee amounts which are not accrued; and (2) principal and interest on general long-term debt which is recognized when due.

All proprietary funds and Non-expendable Trust and Pension Trust Funds are accounted for using the accrual basis of accounting. Their revenues are recognized when they are earned and their expenses are recognized when they are incurred.

Fixed Assets

The Town does not maintain a record of its general fixed assets and accordingly a statement of general fixed assets required by generally accepted accounting principles is not presented in the financial statements.

2, GENERAL LONG-TERM DEBT

General governmental liabilities for retirement of long-term debt are accounted for in the General Long-Term Debt Group of accounts. Amounts due in future periods are provided by appropriation and become part of the funds raised through taxes. The Town's obligation on December 31, 1986 consisted of the following.

7.25% note, unsecured, interest due
semi-annually, principal of \$53,400
due annually, through December 1990

TOTAL 213,600

3. TOTAL COLUMNS ON COMBINED STATEMENTS - OVERVIEW

Total columns on the Combined Statements - Overview are captioned "Memorandum Only" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations or changes in financial position in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

TOWN OF GREENLAND, NEW HAMPSHIRE
NOTES TO FINANCIAL STATEMENTS (Cont'd)
DECEMBER 31, 1986

4. CONTINGENCIES

Public Service Company of New Hampshire (PSC) has protested the method by which it was assessed for property tax purposes. PSC believes its assessment should be its net book value. The Town, however, assesses it as approximate market value (the same method as the rest of the Town).

PSC has protested its assessments since 1973. The New Hampshire Supreme Court (Docket No. 7535) has denied such protests through 1977. The Board of Taxation has also denied abatement for the year 1980 and attorneys have filed motions to cover the prior years' cases.

A meeting of the Greenland School District meeting was called to order by Moderator Paul Sanderson at 8:05 p.m. on March 14, 1987. The invocation was given by Rev. William Hammel, followed by the "Pledge of Allegiance" lead by Matthew Fletcher and Jason Hussey. Introductions were made; the rules of order were presented by Paul Sanderson.

ARTICLE I--Moved by John Wolfe; seconded by Robert Peterson, to hear the reports of Agents, Committees, or Officers heretofore chosen and that the clerk report be accepted as written in the town report. Vote in the Affirmative.

ARTICLE II--Moved by Luther Preston and seconded by Robert Peterson to see if the district will vote to authorize the school board to receive and expend on behalf of the district, any or all grants or offers for educational purposes which may now or hereafter be forthcoming from the State of New Hampshire or any agencies thereof, the United States Government or any agency thereof, or any private agency. Vote in the Affirmative.

Paul Sanderson then stated he would like to return to Article I to hear the report of the Cooperative School District Committee presented by Rebecca Thompson. A question and answer period followed with an explanation of the procedures that still follow, leading to the Articles of Agreement.

ARTICLE III--Moved by Jon Bowie; seconded by Earl Spruce, to see if the district will vote to raise and appropriate the sum of five Thousand Dollars (\$5,000) for the purpose of purchasing new playground equipment and for the renovation of the existing playground. Vote in the Affirmative.

ARTICLE IV--Moved by David Engel; seconded by Carol Hawkins, to see if the district will vote to raise and appropriate the sum not exceed One Thousand Dollars (\$1,000) for the purpose of hiring and outfitting an adult crossing guard for morning and afternoon patrol at the school.

Amendment motion made by Thomas Brackett; seconded by Phil Rowe, to request that the State of New Hampshire provide perpendicular lines across Rt. 151 (the state highway). Amendment passed in the Affirmative. Motion passed in the Affirmative.

ARTICLE V--Moved by Sherman Philbrick; seconded by Robert Peterson, to see if the district will raise and appropriate the sum of Ten Thousand Dollars (\$10,000) as a contingency fund as provided under RSA 198:4-1. Voted in the Affirmative.

ARTICLE VI--Moved by John Wolfe; seconded by Rebecca Thompson, to see if the district will raise One Million Six Hundred Twenty-one, Six Hundred and Ninety-six Dollars (\$1,621,696) for the support of schools, for payment of salaries, for obligations of such sums as are estimated to be received from the state equalization fund together with other income, the school board to certify to the selectmen the balance between estimated revenue and the appropriation, which balance is to be raised by taxes by the town. Vote in the Affirmative.

Article VII--Motion made on the floor:

Motion made by Robert Peterson; seconded by Carol Hawkins, that the School Board shall contact the selectmen so that the sidewalks will be kept cleared and that the flashers be kept operating fifty-two weeks of the year.

GREENLAND SCHOOL DISTRICT MINUTES
MARCH 8, 1987
PAGE 2

Amendment made by Earl Spruce; seconded by Thomas Brackett, that the state be contacted to reconsider the placement of the flashers.

Amendment voted in the Affirmative. Motion voted in the Affirmative.

Motion made by Rance Collins to adjourn the meeting; seconded by Robert Peterson. Meeting adjourned at 9:37 p.m.

School District Clerk

VOTING RESULTS OF THE ANNUAL TOWN MEETING OF MARCH 10, 1987.

The following officers were elected at the annual town meeting:

MODERATOR:	Paul G. Sanderson	566
CLERK:	Alison R. Brackett	570
SCHOOL BOARD MEMBER:	Sherman Philbrick	558
TREASURER:	Frances Thompson	585

Alison R. Brackett
Alison Brackett
School District Clerk

SPECIAL SCHOOL DISTRICT MEETING FOR THE TOWN OF
GREENLAND, NEW HAMPSHIRE

SEPTEMBER 22, 1987

The meeting was called to order by Paul Sanderson at 8:10 p.m. An explanation was given as to the procedure that was needed by the State between the five towns involved in the proposed Co-op School District.

The warrant must be voted on by a written ballot. All of the other warrants must match exactly, therefore, there would be an amendment introduced.

To give everyone a chance to speak, the polls would open no sooner than 8:45 p.m., and no later than 10:00 p.m.

Warrant moved by John Wolfe as: Shall the School District of Greenland accept the provisions of RSA195 (as amended) providing for the establishment of a Cooperative School District together with the school district of New Castle, Newington, Rye, and Stratham, in accordance with the provisions of the proposed articles of agreement filed with the school district clerk? Seconded by Luther Preston.

Amendment to the article was moved by John Wolfe as: This vote shall be of no force and effect unless and until the annual meeting of the district votes to withdraw from the Portsmouth Authorized Regional Enrollment Area (AREA) agreement in accordance with the provisions of RSA 195A:14. Seconded by Jane Gouzoules.

All five towns will be voting on the same articles.

Becky Thompson gave informational stance and introduced committee. She discussed what would occur if the vote was "yes."

A questions and answer period followed.

At 9:00 p.m. questioned was moved by Tom Brackett; seconded by W. G. Gouzoules. Vote in the affirmative.

Polls were set up by clerk and supervisors of the check list.

Voting proceeded at 9:10 p.m.

Polls closed at 10:12 p.m.

Recess ordered by Paul Sanderson to count votes.

Meeting proceeded at 10:35 p.m.

Sanderson announced results of balloting: 214 votes cast, 112 "yes", 102 "no." Warrant passed in the affirmative.

Meeting adjourned at 10:37 p.m. on a motion by W. G. Gouzoules; seconded by Tom Brackett.

District Treasurer

AUDITORS' CERTIFICATE

This is to certify that we have examined the books, vouchers, bank statments and other financial records of the treasurer of the school district of _____ of which the above is a true summary for the fiscal year ending June 30, 19 ____, and find them correct in all respects.

19 ____ Auditors _____

GIVE DETAILED STATEMENT OF RECEIPTS ON OTHER SIDE

REPORT OF THE SUPERINTENDENT OF SCHOOLS--1987-88

Daniel C. Durgin

I am pleased to submit my ninth annual report to the citizens of Greenland, New Castle, Newington and Rye.

Following up on a matter reported on last year, I take pleasure in reporting that our Health Curriculum Committee, after eighteen months of study, selected a health program developed in Oregon, and tried and tested in a number of school systems across the country. The curriculum, appropriately named the Oregon Program, consists of eighty-three units of instruction spread over grades Kindergarten through eight. The program efficiently covers the ten major health content areas which are Health Services and Consumer Health, Fitness, Dental Health, Environmental Health, Disease Prevention, Growth and Development, Nutrition, Substance Use and Abuse, Safety and First Aid, as well as Mental Health, Family Life, and Human Sexuality.

SAU #50 is diligently moving ahead on an AIDS education unit, which will be implemented by the spring of 1988. Recognizing the serious nature of the disease, it is the feeling of the staff and school boards that something must be in place as soon as possible to bring accurate information to our young people about this usually fatal disease. It is our strong desire to work closely with parents in bringing this information to our children. Plans call for the entire health program to be in place and introduced in September of 1988.

On a health related matter, the Foundation for Seacoast Health assisted SAU#50 financially last summer in sending a five member team to a wellness conference in Waterville Valley. The week-long program focused on good health habits, particularly in the area of physical exercise and nutrition. Those attending were teachers, Judith Norton, Katherine Hennessy, Regina Taylor; School Nurse Barbara Wilson; and Newington citizen Margaret Lamson. The group returned from the conference unanimously enthused about what they had learned and experienced, and immediately wanted to share their experiences and new knowledge with their colleagues. Some of this was accomplished simply through conversation with staff members. In addition, these five people requested and received permission to use the October in-service half day to bring this information, formally, to the staff. On the afternoon of October 8, 1987, staff members from SAU #50 heard speakers on nutrition, stress management, walking and exercise, and other health related topics. The afternoon's activities were well received by the staff, and most left committed to applying some of their new knowledge to their day-to-day lives. The long term goal is for staff to develop better health habits, in turn modeling this behavior for students who it will see the importance of such behavior.

In September of 1987 an eighteen month study of the feasibility of forming a Cooperative School District with the towns of Greenland, New Castle, Newington, Rye and Stratham was brought to a conclusion by a vote of each town. In order for the plan to succeed, each town would have had to vote favorably upon it. Two towns voted to approve the cooperative formation while three voted against it. This effectively killed the plan for at least the near future. I would be remiss if I did not take this opportunity to acknowledge the work of the committee in studying this most complex issue over that year and a half period. The effort required many meetings consuming a great number of hours. The committee members are to be commended for their unselfish commitment to what was a most difficult, yet important task. A complete and final report from the Cooperative Study Committee is contained elsewhere in this book.

One of our goals in SAU #50 continues to be enhancing students' abilities in the area of thinking and problem solving. Staff members have been encouraged to attend in-service activities available to them and the SAU #50 Staff Development Committee is planning another workshop program on this topic. We are most fortunate also in that the National Association for Supervision and Curriculum Development (NASCD) has targeted critical thinking as one of their themes for this year and next, and is in the process of offering several workshops in New Hampshire on the topic. Well known national authorities are being brought to New Hampshire to provide this valuable instruction for staff and every effort is being made to take advantage of this unique opportunity.

Presently three of our schools are committing much time and energy to a process that can only have a positive impact on their quality. The Greenland Central School, plus the Rye Elementary School and Rye Junior High School, are involved in an accreditation process conducted by the New England Association of Schools and Colleges (NEASC). The process is a time consuming and involved one which requires schools to prepare for an on-site visitation by a team of educators. Every aspect of the school from community interaction to curriculum are studied in depth by the staff. It is felt that this self-evaluation is the most important part of the entire process allowing a school to look at itself carefully and prepare for an outside group to do likewise. The entire process will conclude with the team visitations which are scheduled for November of 1988.

During the summer of 1987 a new computer system was installed in the SAU #50 office. Staff members responsible for financial management spent many hours during the fall and winter months bringing on the payroll system and a new budgeting/accounting package. This new system will allow much more flexibility within the payroll process. Also, through the budgeting package, a more detailed description of our expenditure plan will be permitted thus giving school board members, budget committee members, and the general public a clearer view of where

tax dollars are spent. Much credit goes to Business Administrator James Katkin, assisted by staff member Regina Burgoyne, in bringing this system on line.

While speaking of the SAU #50 office, I would also acknowledge the work of two other people who perform extremely important tasks for the towns which the SAU serves.

Special Education Coordinator Francine Fullam has SAU-wide responsibility for all special education functions. This involves, among other things, assuring that SAU #50 towns are in total compliance with state and federal laws governing the programming for all students receiving special education services, plus overseeing the actual instruction in SAU #50, at Portsmouth High School and Portsmouth Junior High School for those students from the SAU #50 towns. The work involves much parental and student contact and is handled by Miss Fullam with a very professional yet caring attitude.

In addition to her special education duties, Miss Fullam has also taken on the responsibilities of the Directorship of the Chapter I Program, a program that serves the educationally disadvantaged in the areas of language arts and mathematics.

Mary Lou Clinton-Stevens is secretary to the superintendent. Her duties are many and varied due to the nature of our responsibilities and the size of our staff. I am most grateful to these people for their tireless and dedicated efforts on behalf of the four districts which we serve.

In closing, let me remind you as I do each year, to maintain an interest in the activities of your community and your schools, and to visit your schools and become involved whenever and wherever possible.

PRINCIPAL'S REPORT

The year 1987 was a successful year at the Greenland Central School. School closed in June with an enrollment of 247 students. At the time of this writing there are 260 students enrolled. This is an increase of 13 students in four months. There are now two classes of each grade at the school with the exception of grades 6 & 8. All classrooms and every square foot of available space, including storage areas, is being used for instruction. Art and music teachers do not have a teaching station. They are required to "float" from class to class.

New staff members this year are Diane Newick, K-3 teacher aide, John Sundet, Music Teacher, Richard Bzdafka, Grades 6-8 Science Teacher, Kenneth Mason, Grades 6-8 Social Studies Teacher, Judy Fetsko, Resource Room Teacher, and Lisa Carroll Special Education Mentor. Mrs. Carol Ott became the new additional fourth grade teacher. John Moreau became the grades 6-8 Reading Teacher. He also teaches one class of French.

Assertive Discipline: The system is now in its third year of operation. Assertive Discipline is established on the premise that "children have a right to learn and teachers have the right to teach." In order to accomplish this, the student must assume responsibility. One of the strongest points of the system is the teaching of responsibility. Warnings and checks and detentions are simply reminders to the students that they are responsible for their needs and their actions. It is a pleasure to walk the corridors of Greenland Central School and find doors open and quality instruction taking place.

Curriculum Changes: New curricula have been set in place as follows: 1984-85 - Reading, 1985-86 - Social Studies, 1986-87 - Mathematics, 1987-88 - Spelling.

New Spelling Program: In February, 1987, a Spelling Committee, consisting of Nancy Emerson, Katie Hennessy, Barbara Prien, Sheila Pratt, Carol Ott, and myself began to study the spelling program. A review of spelling philosophy and program structure ensued. Seven programs were reviewed. The Committee recommended the Merrill Spelling for Word Mastery, 1-8, be adopted. Positive reasons for this recommendation were: (1) Thorough skills instruction; (2) Clear, consistent lessons; (3) One-of-a-kind word list; (4) Help for every ability level; (5) Quality; (6) Excellent lesson design, i.e., pattern power, other words, meaning mastery, dictionary skills, midweek test, word building, writing activities, proofreading practice, review words, challenge words; (7) Microcomputer software available. The School Board approved the program in May, 1987.

Extra Curricula Activities: The following activities are offered: soccer, field hockey, softball, baseball, basketball for boys and girls, grades 5-8, track and intramurals. Additionally, drama, dances, yearbook, and Olympics of the Mind are offered. An excellent working relationship continues to exist between Mr. Robert Krasko and the staff of the town Recreation Department and the school.

Achievement Testing: In 1986 the State of N.H. mandated that all students in grades 4 & 8 be tested to see how well students in the state are achieving. The state selected the new (1985 copyright) California Achievement Test to be the instrument used. The Greenland School Board made the decision to test students in all grades with the same test. Achievement test data for all grades is available in the Principal's Office.

Principal's Remarks:

I remain enthused about this town and school. The cooperation that I have received from the parents, citizens, Supt. Durgin, School Board members, Sherman Philbrick, John Wolfe, and Jane Gouzoules, is commendable.

I continue to give 100% credit to the quality staff at the Greenland Central School. A thank you for consistency in their support goes to Mrs. Melanie Lovering and Mrs. Peggy Pinsonneault.

Thank you,
Dr. Carl W. Wood, Principal

GREENLAND CENTRAL SCHOOL

GUIDANCE COUNSELOR'S REPORT

I continue to strive to provide the best possible counseling services in my three-day a week position. I provide individual counseling as well as classroom activities groups. This year's classroom activity groups in grades 1-5 covered such topics as social skills, individual differences, and friendship.

Part of my job description as guidance counselor includes acting as chairperson of the Special Education Placement Team. My responsibilities have grown over the last three years as the number of Special Education students have more than tripled.

I have assumed two additional responsibilities this year. I organized, wrote in part, and typed a student handbook. It has helped to communicate to parents, students, and teachers the same information concerning the rules and procedures which are necessary for a smooth running school.

I have also agreed to co-chair our year-long, self-evaluation process which will hopefully lead to accreditation for your school. This is a very comprehensive process which evaluates all facets of Greenland Central School. This process is time consuming, but should lead to recommendations from community members, parents, students, staff members, and the visiting evaluation team which will make Greenland Central an even better school.

Mrs. Melanie Lovering
Guidance Counselor

SCHOOL NURSE'S REPORT

In September physical screenings were given to students in grades 4-8 planning to participate in school sports. A physician and registered nurse from the Occupational Health Department at Portsmouth Hospital did the screenings.

In October parent volunteers helped with health screenings, including vision, B/P, heights, and weights. Vision testing is done throughout the school year at teacher, parent, or specialists' requests, with referrals made as needed. Hearing tests for students begin in early Spring and on request with an audiometer. Referrals are made when necessary.

The N. H. Division of Public Health Services Immunization Program Survey was completed and submitted prior to the November 1 deadline. Immunization updates are ongoing throughout the school year.

Packets were given out to all students from the American Cancer Society for the Great American Smoke-Out. We sponsored a balloon send-off with the support of radio station WQMI and parent volunteers.

The N. H. State Dental Health Program offers an inschool dental cleaning and fluoride application to any interested student in late Spring. We are fortunate this year to have Jose A. Ramos, D.M.D., follow-up with dental hygiene instructions offered to grades K-8.

Postural screening for scoliosis follows for grades 5-8, with referrals made as necessary.

Pre-school vision and hearing screening will be March 12, 1988.

We hosted a successful workshop for school nurses and health educators on January 29, 1988. Topics presented were: A.I.D.S.---the disease and legal implications, "Important Issues Affecting School Nurses," followed by an afternoon of wellness and exercise type workshops.

Throughout the year, by teacher or personal request, I present health related topics to all grades. This year I have discussed nutrition to elementary and junior high classes and will do a section on maturation and growth in grades 5 this Spring.

Mr. Chip Hussey from the Greenland Fire Department has been contacted regarding offering of C.P.R. classes to junior high students.

I continue to be a student in U. N. H.'s EBORN Program, working towards a BSN in nursing. I will be ending my position as School Nurse at the close of this school year in order to complete academic requirements.

My commitment to Greenland Central School is to continue to offer nursing care to students and staff and carry through with the nursing programs currently in effect, adding any updates to benefit students and staff.

Mrs. Joan B. Fleming, R.N.

REPORT OF COOPERATIVE SCHOOL STUDY COMMITTEE

According to a vote taken at school district meetings in the towns of Greenland, New Castle, Newington, Rye, and Stratham, a Cooperative School District Study Committee was formed in the spring of 1986. The committee was charged with studying the various issues surrounding the feasibility of establishing a cooperative school district and with filing a written report at the March, 1987, school district meetings. The main responsibility of the committee, if a cooperative school was found to be feasible, was to draft and bring to the voters, articles of agreement as prescribed by state law. These articles would cover every aspect of the cooperative district from the name of the new school and how costs would be allocated, to the representation on the school board. Three members from each town, one of whom was a school board member from that town, were appointed by the district's moderator. Some towns chose to appoint alternates as well.

The committee held its organizational meeting in April, 1986. Subcommittees were formed and members began to investigate the many aspects of a cooperative school district. This is a final report of the process used, the actions taken, and the results achieved.

The committee spent considerable time discussing and exploring community needs, not just present needs, but future considerations. Subcommittees carefully projected enrollments and tuition costs, not just for the five towns but for the districts to which they presently tuition students--Portsmouth and Exeter. With the superb assistance of the superintendent's office, these projections were done in a variety of commonly used methods and compared and analyzed. The results were very interesting. While some towns saw tremendous growth as their primary reason for joining the study group, others found declining enrollment and the high per pupil cost to be their motivator. Still, others felt that unity and continuity of program were primary advantages. Members began to appreciate the possibilities in curriculum, program continuity, personal recognition of students, and cost effectiveness that operation and ownership of their own school could bring. From these discussions a common ground was realized. Members felt very comfortable with the primary educational process within the towns. They agreed that they would pursue as a committee the feasibility of the formation of a cooperative school district encompassing grades 7 - 12 with a combined enrollment of 1,125 students.

Having made this decision several things needed to be done. First the committee needed to identify curriculum priorities; second, to estimate the cost of such a school system; and third, to formulate an equitable method of apportioning the cost to each town.

Early on the conclusion was reached that no town currently held any buildings that could be of use to the Coop project, not to mention a general unwillingness to sell town owned buildings to a Coop district. Therefore, new construction was projected.

Staffing and curriculum subcommittees worked long and hard comparing programs at Portsmouth High School and Exeter AREA High School and formulating an "ideal" school curriculum with built in class size requirements and space requirements. The same was done for the seventh and eighth grade programs of all five towns. The outcome was a recommendation for two separate schools on the same site connected by a core unit housing certain shared facilities such as office area, guidance, nurse, auditorium, kitchen facility and library. The proposed system provided all of the programs presently available to students.

This information generated the operational and building costs using a computer program provided by the New Hampshire Department of Education.

Visitations to other schools and communication with other cooperatives of a size similar to the one being proposed were helpful in determining what was working for them, and what was not, and why. Information on issues such as the middle school concept, and sharing of services, personnel needs, and the creativity of programing found in smaller schools was most helpful. The members felt strongly that seventh and eighth grade students should not have interaction with students in grades nine through twelve. They also rejected the idea of a grade seven through nine concept and proceeded to plan for two separate wings. It was also felt with good planning the seventh and eighth graders could successfully share many aspects of the site, without regular interaction with students in grades nine through twelve. These requirements were built into the program.

By taking the projected enrollment of 1,125 students for 1989 (the projected date of opening) and the projected operating and capital costs for that same year, the committee felt it had workable figures to complete the final recommendation. The finance subcommittee worked diligently on every aspect of cost, meeting weekly for an extended period to discuss and examine the repercussions of apportionment of cost throughout the five towns. Where dissimilarities in need drew towns together in the concept of the cooperative, differences in student population, town valuation, and growth potential made the apportionment of cost the most difficult aspect of the study. Everyone was seeking an equitable answer. Literally dozens of different combinations were investigated. The first conclusion reached was that operational costs must be distributed on a per student basis. In other words, operational costs for any given year were to be divided by the number of students in the system and multiplied by the number of students for each town to achieve that town's share for that year.

The capital or building costs were another matter and many meetings were held just on that issue. The committee was unable to come to complete agreement. However, for the purpose of moving forward tentative agreement on a compromise of 80% student enrollment and 20% equalized valuation was reached. In other words, 80% of the capital costs for any given year would be billed in the same method as the operational costs, by number of students enrolled by town. Twenty percent would be apportioned based on a formula from the state on equalized valuation of the towns. In reaching this position the following was considered: (a) representation on the proposed school board; (b) the tax increase for each town that would result; (c) the projected per pupil cost per town. The committee felt that for the five towns such issues as direct control over finances and curriculum, continuity of educational program, and ownership of a state of the art facility, made the project a viable alternative worthy of consideration. The consensus on the apportionment of capital (building) costs was ultimately 85% enrollment, 15% equalized value formula.

At this point, a report was made to the five towns at their respective annual district meetings noting progress thus far..

The depth of the study made it necessary to continue working. The committee set about to finalize the articles of agreement, and continued discussions of cost apportionment. A public hearing was held at the Rye Junior High School on June 2, 1987, for the five towns. Also, informational sessions were held in each of the five towns. Input from the public hearings caused reconsideration of the articles of agreement and many people requested the voting be postponed until September. A second public hearing was held on June 24 to review changes in wording. The articles of agreement were submitted to the New Hampshire Board of Education and were approved on July 15. A date for the final vote was set for September 22, 1987. Information to voters was mailed prior to the meeting.

Because the vote had been postponed until September, the projected date of opening was pushed back one year to 1990. This in turn changed the projected figures, and caused concern with our receiving districts--Portsmouth and Exeter, who were trying to plan for their own needs. Along with a vote to form the Coop in September, a favorable vote by 2/3 majority to withdraw from our AREA agreements was also necessary. This vote could only take place at a regular annual school district meeting, the next one being in March of 1988.

The question put before the voters on September 22nd was whether or not they would vote to form a cooperative school district with Rye, Newington, New Castle Greenland and Stratham,. The vote by ballot was:

	YES	NO
Greenland	112	102
New Castle	34	77
Newington	42	73
Rye	160	112
Stratham	78	146

For a Cooperatiave School District to have been formed it was necessary for the five towns to pass the article by a simple majority vote. Three towns did not pass it, therefore, the coop was not formed.

The committee feels confident that their recommendation was sound. Investigation into the future of education in this area clearly indicates that growth and change are part of our future and we need to prepare for them by carefully planning, and not by waiting for a crisis and reacting to it. People who voted against the coop did so for many reasons. Some were financial, some educational, and some personal. Although this particular cooperative concept did not please the majority of the people, please remain open minded to other options as the opportunities arise. By our not preparing today for tomorrow, we will drastically limit our options when the problems become more evident.

AUDITOR'S OPINION

We have examined the combined financial statements of the Greenland, New Hampshire School District for the year ended June 30, 1987, as listed in the table of contents. Our examination was made in accordance with generally accepted auditing standards and the additional standards and requirements for financial and compliance audits as set forth in Standards for Audit of Governmental Organizations, Programs, Activities and Functions, and accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances, except as noted in the following paragraph.

In accordance with the practices followed by other municipal entities in the State (Note I--Accounting Policies), the combined financial statements referred to above do not include financial statements of the General Fixed Asset Account Group, which should be included to conform with generally accepted accounting principles.

In our opinion, except for the omission of the financial statements described above results in an incomplete presentation, the combined financial statements referred to above present fairly the financial position of the Greenland, New Hampshire School District at June 30, 1987, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles, applied on a basis consistent with the preceding year.

Our examination was made for the purpose of forming an opinion on the combined financial statements taken as a whole. The accompanying supplemental combining financial statements listed in the table of contents are presented for purposes of additional analysis and are not a required part of the combined financial statements of the Greenland, New Hampshire School District. The information has been subjected to the auditing procedures applied in the examination of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the combined financial statements taken as a whole.
